

**The
International Association for Probabilistic Safety Assessment and**

Management (IAPSAM) is pleased to announce:

The George Apostolakis Fellowship

The George Apostolakis Fellowship, honoring Prof. George Apostolakis for his contribution to the Science of Risk as well as his vision, energy, and guidance generously given to IAPSAM. The George Apostolakis Fellowship is to be awarded to an 'early career' individual who is active in the field of Risk Assessment. The fellowship is intended to honor an individual who may be one of tomorrow's leaders in the advancement of probabilistic safety assessment and management. Candidates are graduate students, post-graduate researchers or early career professionals, who are nominated by a professor, a colleague, or a supervisor. The candidate is expected to participate in the PSAM 17 Conference and present a full paper during the Conference.

Award

- Recognition at the Conference lunch
- Conference fees waived
- A plaque commemorating the award

Eligibility

- Graduate students, post-graduate researchers or early career professionals
- Only candidates presenting a paper at the Conference will be considered for the Fellowship

How to Apply

- Applications (a letter of recommendation and resume) can be sent to Curtis.Lee.Smith@gmail.com.

George Apostolakis

George Apostolakis Dr. Apostolakis is a professor emeritus of the Nuclear Science and Engineering Department and of the Engineering Systems Division of the Massachusetts Institute of Technology. He served as a Commissioner of the U.S. Nuclear Regulatory Commission (NRC) from April 23, 2010 until June 30, 2014. From 1995 until 2010, he was a member and former Chairman (2001-2002) of the Advisory Committee on Reactor Safeguards of the NRC. He is currently the Head of the Nuclear Risk Research Center in Japan. He is a member of the U.S. National Academy of Engineering and a Fellow of the American Nuclear Society and the Society for Risk Analysis. He has received the Tommy Thompson Award and the Arthur Holly Compton Award from the American Nuclear Society. He is a Corresponding Member of the Academy of Athens. Dr. Apostolakis holds a Ph.D. in Engineering Science and Applied Mathematics (awarded in 1973) and a Master of Science degree in Engineering Science (1970) from the California Institute of Technology. He earned his undergraduate degree in Electrical Engineering from the National Technical University in Athens, Greece, in 1969.
